Training Keys

Your best source for affordable, high-quality, in-service training.

What are the *Training Keys*?

Each *Training Key* consists of a six page, loose-leaf monograph designed specifically to be a concise, authoritative source of law enforcement information. The *Training Keys* are ideal for roll call training and formal classroom instruction, as well as independent study. The keys are conveniently subdivided to better accommodate incremental training sessions and each includes questions and answers to test and document student learning.

For over 35 years, local and state law enforcement agencies have looked to the *Training Keys* as the cornerstone of their law enforcement training and education. The program can provide the foundations of professional police work, refine established skills, and place officers on the cutting edge of new developments in law enforcement. The *Training Keys* have explored over 500 topics covering the full range of law enforcement service and operations.

What do the *Training Keys* cost?

The *Training Keys* have been priced so that they are affordable for nearly all law enforcement agencies. For a nominal fee per officer per year, each officer will receive 12 individual *Training Keys*—enough material for many departments to meet a full year of in-service training needs. In order to be a current subscriber to the *Training Keys* and receive the most recent issues, an agency must enroll all sworn officers with the exception of command, administrative, and civilian personnel. This policy ensures that an agency-wide, in-service training program can be implemented, and it provides officers with personal training materials that they can refer to again and again over their professional careers.

The *Training Keys* published in prior years are bound in volumes or placed onto a CD and can be purchased in any quantity at $14.00 per volume (discount available on certain volumes). Please refer to the enclosed *Training Key* Index for both a numerical and subject listing.

To order, complete the enclosed *Training Key* order form and payment information. Volumes can also be purchased online by visiting http://www.theiacp.org/TrainingKeys. If you have any questions or require additional information, please contact the *Training Key* program at:
